3.0 Communication from the Chairperson and President of UWbF

The General Secretary of the National Council of Sports (NCS) and other government organs, The Patron Uganda Woodball Federation, Invited guests and all dignitaries, UWbF Executive Members, Members of the Congress, Members of the Press, Ladies and Gentlemen,

I welcome all of you to the 14th UWbF Annual Congress.

I would like to thank the Almighty God that has enabled us all to complete the year 2021, a year of several activities in line with Woodball development in Uganda. In the year 2021 we continued to operate under restrictions due to the Covid-19 challenges associated with the pandemic and we were able to have a few activities.

My heartfelt condolences to all our members, partners and friends who lost your relatives and loved ones in 2021. The Woodball fraternity also lost the founder of Woodball sport, President Ming Hui- Weng in March 2021. I request members of the congress to stand up and observe a moment of silence in respect of Weng Ming-Hui.

May the souls of all the deceased rest in eternal peace and may the Almighty God comfort all of you.

This being our first congress of our five year-term of office, we greatly appreciate all of you members for a continued commitment and strong collaboration and partnership as key stakeholders in the development of the Woodball Sport in Uganda. Your support has continued to add value to the brand of the Woodball Sport and enhancing the visibility of Uganda Woodball federation.

My address to this congress will be centered on the Seven Pillars of the Uganda Woodball Federation Strategic plan that was passed by last year's congress.

1. Corporate Governance:

Strengthen governance structures, capacity building and credible leadership.

We have continued to exhibit key elements of good corporate governance at the Uganda Woodball Federation. Capacity Building has been key where we have partnered with organizations like the Uganda Olympic Committee to have our members under the administration course. I would like to recognize the 2nd Vice President Ms. Luwedde Shahnaz, for having completed the Advanced Sports Management course together with other members who completed before such as Mr. Gerald Kavuma, Mr. Agaba Julius among others. I encourage members to enroll for such study opportunities so that we can build capacity at the federation.

Our plan is to ensure that we strengthen the governance structures at the

federation and club levels to have the sport develop well up to the grassroots. I would also like to take this opportunity to inform members that the Chinese Embassy in Uganda has supported capacity building and training to 8 federation administrators in line with managing sport organizations and remedies against sport injuries.

We have significantly enhanced the design and quality of our governance reports, data and delivery mechanism through the use of the latest ICT and other capacity building mechanisms

The newly appointed commission heads and their members will be received by Congress to serve for the next two years in their different capacities having been appointed by the Executive committee

The Executive committee

2. Strengthening Resource Mobilization:

The objective of this pillar is to further diversify revenue resources as a sustainability mission of UWbF. (Operations and Capital Development/ Infrastructure). Last year, the federation continued to mobilize resources to support its annual budget activities. The federation has continued to lobby for government support to finance its annual budget activities.

Our focus this year is to ensure that woodball as a sport is listed among the annual priority funded sports of government. We have had an average percentage increase in government funding of 18% for the last three consecutive years.

The federation's expected annual income from the sale of woodball equipment is expected to grow by 50% on a pro rata basis.

The expected funding from the Chinese government through the Chinese embassy in Uganda has been growing at a steady rate and we expect this funding to grow even further with the apparent commitment of the Chinese government to substantially support the infrastructure development of the proposed multi complex woodball project.

For the last three years, we have observed a significant increase in the overall budget of UWbF which is a sign of a growing sport. I think given our major prospect of kick starting on the major development multi complex project of woodball, we expect a substantive growth in the capital budget of UWbF in the coming year and beyond. This will be achieved with a support from Uganda government and Chinese government.

3. National Team performance:

Quality of athletes, competition and ranking Considering our deliberate effort to show uniqueness and have continued to run our federation annual activities by striking a balance between the national and international calendar.

The national team has continued to grow in performance considering the recent two international events we participated in. Uganda managed to win the 2nd Africa Woodball Championship that was hosted in Nairobi scooping 7 Gold medals out of the 14. We also had the Women's Double

Team win the International Virtual Woodball Championship having defeated Korea on the finals. Other countries that participated include, China, Malaysia, Thailand, Chinese Taipei, and Indonesia among others. Our focus is to ensure that our athletes gain more international

exposure by competing at more events such as the World Cup so that we can grow in the global rankings and make Uganda proud.

We continue to register a steady growth in athlete numbers in all the three categories i.e., Juniors, Seniors and Corporates.

4. Strengthening partnerships and collaboration:

In a bid to portray UWbF as a prominent and appealing brand to our local and international partners, the federation has continued to strengthen the woodball brand by enhancing the quality of the organization of its annual activities.

This pillar is centered at attracting key sponsors.

The federation has continued to maintain a good relationship with the current sponsors and partners amidst the pandemic. These partners include the Chinese Embassy in Uganda, Uganda Government, Ndejje University, Coral Coatings, Institute of Certified Public Accountants of Uganda and other venue partners.

We have also been able to attract more

venue sponsors for the Woodball sport. These include, Bunjako Beach where we shall be having our Beach Woodball Circuits on top of existing beaches like Kisubi Beach and Spenah beach.

5. Marketing and Development:

A courtesy visit of the president of Uganda to the woodball manufacturing plant and also playing the game of woodball. The first lady and minister of education and sports visiting the woodball manufacturing plant and also playing woodball.

The state minister of sports Hon. Hamson Obua visiting Uganda woodball federation quarters twice in a period of a year, the former Chinese ambassador visiting the premises, the federation strategic move of inviting and partnering with key strategic personalities in this country.

Our development initiatives have in part been supported by H.E. the President and First Lady of the Republic of Uganda. The First Lady endorsed our premium project of establishing a multi-purpose Woodball development facility.

The Chinese Embassy continues to affirm its support towards our development

agenda. Four high tech seasoning machines have been procured and fully financed by the Chinese government.

We have also had developments in line with great achievements such as the recognition of H.E. the President of the Republic of Uganda by the International Woodball Federation as well as the First Lady in appreciation of their continued support to Woodball development in Uganda.

The federation continues to build Woodball as a competitive strong brand to attract key partners. This will help the marketing team develop winning proposals that can attract funding and sustain the federation.

We shall continue to market the locally manufactured Woodball equipment in Uganda, East Africa and Africa at large.

We have been able to have approximately 85 articles that have been run in both print and electronic media. Our social media handles are very active i.e., facebook, Twitter and YouTube, thanks to the

Media commission. This makes woodball sport as one of the most popular sports in the nation. The UWbF website is apparently one of the most well designed websites, very attractive and very frequently visited and key indicator of a growing and quality sport. With such publicity, Woodball is one of the most publicized sports in Uganda.

6. Internationalization and Professionalism:

The federation is working towards having an international outlook to create competitive strength looking at the brand quality and value of the sport.

We have maintained a great relationship with the International Woodball Federation as well as the Africa Woodball Federation to grow the sport. We also advocate

for professional conduct and practice in all Woodball affairs at different levels including at clubs, schools, corporate entities, to mention but a few.

The President of UWbF is apparently the Vice president of the International Woodball Federation in charge of Africa continent and a member of the international federation finance committee.

7. Capital and infrastructure development

The Proposed Uganda Woodball Development Project to be set up in Garuga

UWbF in its effort to develop and grow the sport of woodball has undertaken a deliberate effort to pursue its development agenda alongside the general operations of the federation. This is intended to address the budgetary constraints and imbalance by consolidating its capital budget from operational budget.

In line with infrastructure growth and capital preservation, the federation

has put a strategy in place to engage it's key partners like the government of Uganda, through the national council of sports and ministry of education and sports as well as the Chinese government through the Chinese embassy in Uganda to mobilise resources that will support the establishment of a multi- purpose woodball development facility.

This will house the UWbF offices, woodball factory, National cultural center, an international woodball course as well as accommodation facilities for residential training. I would like to inform members that early this year we managed to have the government to inspect the proposed site of the facility and has confirmed to support the project

The First Lady and Minister of Education and Sports early last year endorsed the Uganda Woodball Federation premium project of establishing a multi-purpose complex woodball project. The Chinese embassy has continued to affirm its support towards our development agenda

Conclusion

From the above pillars, I would like to take this opportunity to thank all our stakeholders for all the support. The detail of this will be observed in the executive report looking at the activities that have taken place in the year 2022.

Special recognition and thanks goes to the following key stakeholders;

- a) Uganda Government for the financial and moral support hence boosting the brand growth and awareness
- b) The Chinese Embassy in Uganda for promoting the image of the Woodball sport and financial support
- c) Ndejje University for the financial support and playing a nurturing role
- d) The Media for the promotion, branding and hyping the sport.

I wish you a happy New year, For God and My Country!

b) Media Commission Achievements

We are happy as media commission to have registered some achievements in our work though there are some gaps missing thus the need for corporation, coordination to help us fulfill our cardinal roles while serving the Uganda Woodball federation through Media Management.

The federation through its calendar games have been published on many media outlets which includes Televisions, Radios, Websites and newspapers respectively throughout the year.

We have had several representations of live shows both on Radio and Television in a bid to create more awareness about the woodball game in Uganda and the whole world at large.

The commission welcomes any form of support from other departments of the federation to help in creation of awareness about the game.

The website is up and well function as expected. Its content is linked to our social media handles

c) Media Commission Challenges

The commission lacks workplace equipment in place to help it execute its duties like camera, laptop because in most cases, the press may miss out important details which the federation may like to use on its blog and getting any press person after an event is very tedious thus need to have its own equipment in place.

There are some athletes who attack journalists due to errors that are made in their names. This vice has demoralized some individuals who fear to be attacked while executing their duties during the games but it is under control at the moment.

d) Media Commission Recommendations

- a) The commission plans to hold refresher Woodball Clinics for execution of good public relations.

-
- b) The commission plans to secure more publicity materials for the federation like tear drop banners, back drop banners and renovation of our main signpost that is a sorry state at the moment.
 - c) We advocate for official email addresses as per the positions to enable the relevant stakeholders receive the information disseminated.
 - d) The commission seeks to have work place equipment in place to help it execute its duties like camera, laptop to facilitate their work.

Media Commission plan for 2022.

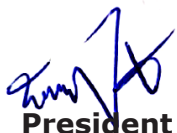

- a) We plan to implement branding for the federation to include the Website, social media, staff dress code, promotional material among others
- b) We plan to partner with Ndejje University Television to have our games broadcasted live and other Television outlets starting with This years' Annual general meeting.
- c) To create more visibility for the federation and raise more money, the commission has plans of introducing calendars, pens, stickers, key holders and diaries that will be sold at reasonable prices to both athletes, stakeholders and the general public as well as generate some money during Federation activities throughout the whole country.
- d) Creation of more social media pages like Instagram and YouTube channels to widen the visibility of the game.
- e) The commission through the administrators and the designer are to start having with Pre – event press releases, and adverts to be sent to the Website Manager early enough to update the public about the various happenings of the game and the federation at large.
Re-introduction of live streams, instant updates about any wood activity through the website and all social media channels about the game's development in any location.

5.4.5 Corporates Commission

- a) The Corporate Commission is a team that aims at attracting more Corporate Companies into the sport of Woodball. This is always done by taking part in different outings of Corporate Sport Associations like Corporate Games, Corporate League, Banks Gala, All Saints Church Nakasero Gala, Karamoja Games and Inter-technical Institute Games.

-
- b)** The Commission managed to carry out a few activities amidst all challenges. As we very well know that most Companies had shade off their employees caused by the Pandemic however, as the commission we managed to reach players one on one and encouraged them to take part in the few Corporate Events that occurred in 2021 i.e.; at MUBS, Bugema University and National Open that was hosted at UCU Mukono where the turn up was pleasing.

6.0 Introduction.

The President and Chairman of the Congress, the Executive members, the representative of NCS and all you delegates to this Congress, I greet you all and wish you a happy new year 2022.

In the financial year 2021 we set out to ensure that we meet all the calendar events and also work towards financial sustainability. At that time we thought that the Covid pandemic would cease, however this was never the case. The pandemic and its effects affected our operations tremendously as evidenced by the performance for the period under review. I wish to add that this performance is a testimony to the commitment of the President and the executive to ensure that Woodball indeed continues on the growth trajectory.

I commend the excellent working relationship of the finance commission, the sponsors, the team managers that have worked so tirelessly for us to meet the needed financial obligations. The resilience exhibited if replicated this year will certainly propel our federation to financial sustainability

Let me now present the achievements of the year.

- i. We worked to ensure that the Woodball events selected during the lock down and subsequent partial lock down were run successfully.
- ii. We have also managed to implement the finance guideline as approved.
- iii. Delivery of 2 sets of Woodball manufacturing machines to Woodball factory at Ndejje University.
- iv. We have utilized the lock down period and manufactured quite a number of woodball equipment as reflected in the finance report. This has helped us solve the problem of equipment scarcity.

In spite of these achievements there are also opportunities that can be addressed to even further the financial health.

- v. There is need to focus on financial sustainability of the federation.
- vi. Raise funds for the international woodball course which is our flagship project.
- vii. Implement a robust debt recovery strategy.
- viii. Enhance the financial knowledge and skills of club managers and officials.
- ix. Solicit for sponsorship tagged to specific events and approved activities inter dem with the strategic pillar.

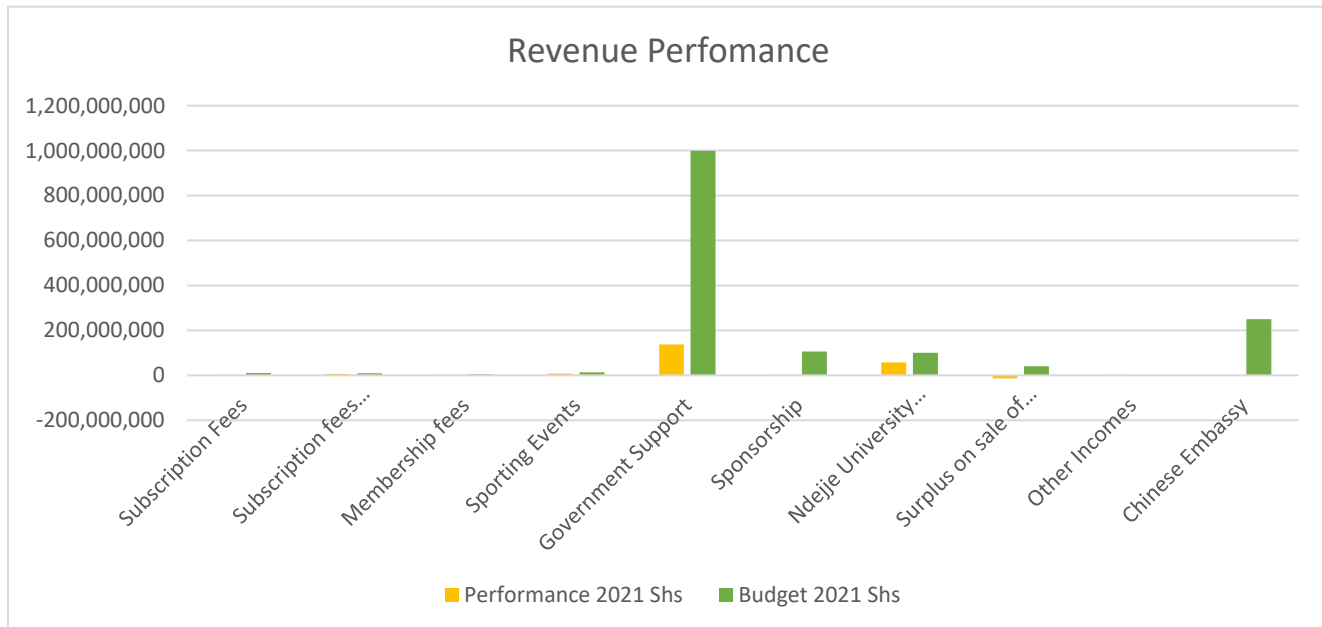

Mr. President and the congress, allow me to present a brief about our financial performance for the FY 2021

2.0 Revenue Performance FY2021

Total Income	196,360,080	1,553,696,672		

Figure 1: Comparative Analysis of Revenue

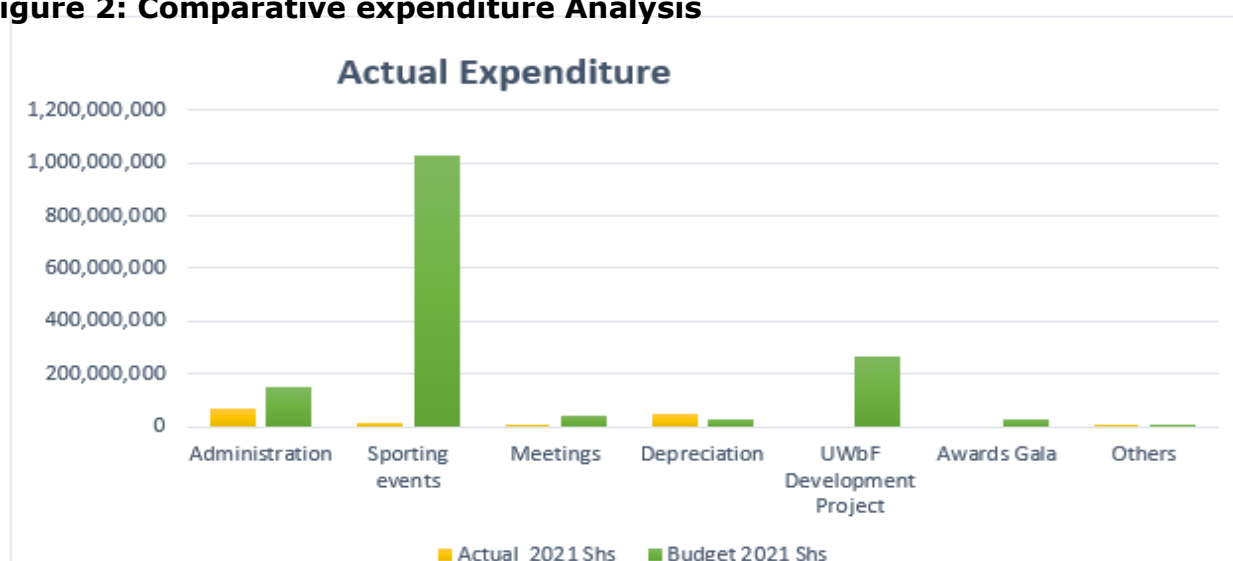

This year we report a revenue shortfall of 87.18% attributed to the consequences of the measures put in place by government to manage the Covid 19 pandemic. We managed to raise UGX 196,360,080 which is 12.82 % of the budgeted revenue. We thank NCS and Ndejje University for contributing the lions share, that is, approximately 69.7% and 29% respectively as indicated in the graph above. I also note that most of our revenue is generated from the efforts of the President and the finance commission in soliciting this financial support. Various championships, Membership fee, and subscription contributed less than 5% which trend is consistent over the years. We need to step up in this area.

3.0 Expenditure Performance

Table: Showing Expenditure Performance

Total Expenditure	144,483,076	1,553,696,672		

Figure 2: Comparative expenditure Analysis

The generated revenue was mainly spent on the federation administrative costs, where our expenditure was limited by the resource envelope.

Finally, Mr. Chairman and the congress allow me present the budget proposal for FY2022.

The budget proposal being presented is guided by the new strategic plan, where considered votes resonate around the strategic pillars. I have a revenue projection of UGX 6,519,795,500 and a commensurate expenditure as indicated. The bulk of the expenditure is allocated to the federation development project and the international competition namely the world cup and others. As the schedule below.

In order for us to achieve this proposed budget, we need concerted effort to meet subscription, and also engage with our core sponsors.

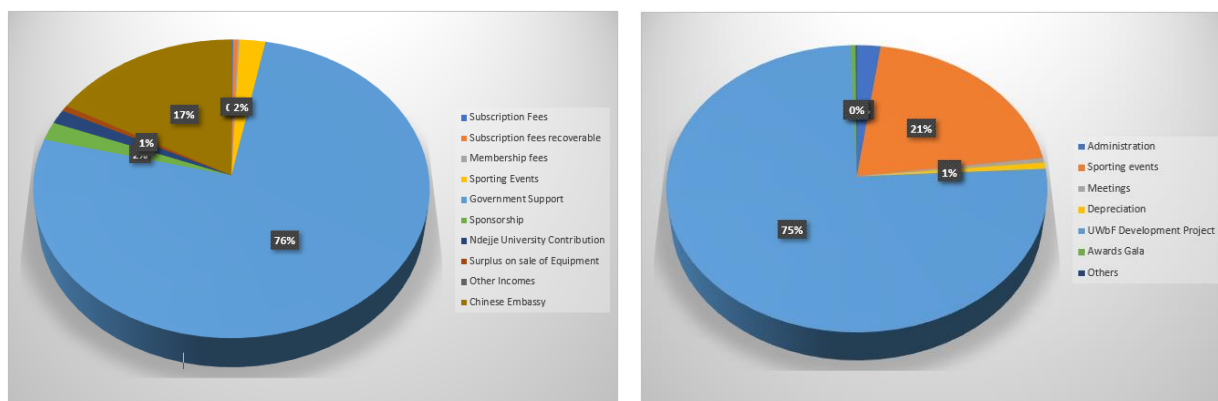

Mr. Chairman on behalf of the Finance commission and the entire executive committee, I pray that the congress approves this budget for the year 2022.

Statement of Executive Committee Responsibilities

It is the responsibility of Executive Committee to prepare financial statements for each financial year, which give a true and fair view of the state of affairs of the Federation as at the end of the financial year. In preparing those financial statements, the Executive Committee is required to:

- ❑ Select suitable accounting policies and then apply them consistently;
- ❑ Make judgments and estimates that are reasonable and prudent;
- ❑ State whether applicable accounting standards have been followed;
- ❑ Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Federation will continue to exist.

The Executive Committee is responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Federation, and to enable them ensure that the financial statements comply with the rules and regulations. They are also responsible for safeguarding the assets of the Federation and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Executive Committee confirms that in their opinion:

- (a) The financial statements give a true and fair view of the financial position of the Federation as at 31 December 2021 for the year then ended; and
- (b) The financial statements are drawn up in accordance with the applicable accounting standards and financial regulations of the Federation.

This statement is made in accordance with the resolution of the Executive Committee.

Independent Auditor's Report to the members Uganda Woodball Federation

Report on the Audit of the Financial Statement

Opinion

We have audited the financial statement of Uganda Woodball Federation (UWBF) which comprise the statement of financial position as at 31 December 2021, and the statement of comprehensive income, statement of cash flows for year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of Uganda Woodball Federation as at 31st December 2021 and its financial performance and its cash flows for the year then ended are in accordance with the International Financial Reporting Standards for SME (Small and Medium Enterprises

Basis for our Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Federation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Uganda, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and forming our opinion thereon, and we do not provide a separate opinion on these matters.

The Executive Committee is responsible for the other information. The other information comprises the Executive Committee's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance / conclusion thereon

Other information

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Executive Committee and those Charged with Governance for the financial statements

The Executive Committee is responsible for the preparation and fair presentation of the financial statements in accordance with Generally Acceptable Accounting Practices, and for such internal control as the committee determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, the Executive Committee is responsible for assessing the federation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using going concern basis accounting unless management either intends to liquidate the federation or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the federation financial reporting process.

Auditor's responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also;

- Identify and assess the risks of material misstatement of financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Report of the Independent Auditor to the members of Uganda Woodball Federation (*Cont'd*)

Auditor's responsibilities for the Audit of the Financial Statements (*continued*)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the federation's internal control.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the federation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to date of our auditor's report. However, future events or conditions may cause the federation to cease to continue as going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were most significance in the audit of the financial statements of the current period and therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Financial Statements

1. Nature and History of the Federation

Uganda Woodball Federation (UWbF) was registered with National Council Sports (NCS) and is affiliated to IWbF, AWbF. The Headquarters of the Federation is located at Plot 264 Block 10 Balintuma Road-Mengo-Kampala.

2. Accounting Policies

Basis of Accounting

The financial statements of the Federation are prepared in Uganda Shilling (Shs) under the historical convention in accordance with and comply with the Federation's accounting policies unless otherwise stated.

Income recognition

Members' subscription or any other income is recognized on cash basis except receivables from sale of equipment that is recognized on accrual basis. The expenditure is recognized as and when it is incurred.

Equipment

All the equipment is stated at cost less depreciation. The cost of purchased equipment is the value of consideration given to acquire the assets and the value of other directly attributed costs, which have been incurred in bringing the assets to the location and condition necessary for their intended service.

Depreciation

Depreciation is calculated to write off the cost of the equipment on a straight-line basis using annual rates determined by considering their estimated useful lives. The annual rates used are:

Item	Rates
Computers and data handling Equipment	30.0%
Furniture and Fittings	12.5%
Manufacturing Equipment	12.5%
Sports Equipment	12.5%

Notes to the Financial Statements (*Cont'd*)

2. Accounting Policies (*Cont'd*)

Foreign Currencies

Assets and liabilities expressed in foreign currencies are translated into Uganda Shillings at the rate of exchange ruling at the balance sheet date. Transactions during the year are translated at the rates ruling at the dates of the transactions. Gains and losses on exchange are dealt with in the income statement.

Receivables

The subscription not paid during the year is fully provided for and recognised in the year when it is paid before the member is reinstated to participate in the activities.

Components of Cash and Cash Equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash in hand and all deposits held at call with banks.

Use of Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the amounts and balances reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
